

BUILDING INDIA DIGITAL

USER GUIDE & COMPLETE FEATURE DOCUMENTATION

Step-by-Step Client Manual for Work Allocator Portal

1. SYSTEM OVERVIEW & ACCESS PORTALS

The Building India Digital Work Allocator Portal is an enterprise-grade cloud system engineered for seamless task allocation, real-time employee attendance, automated pro-rata payroll processing, and client workflow tracking.

- **Allocator Admin Console:** Accessible at <https://workallocator.buildingindiadigital.com/> — Designed exclusively for Management & Allocators to create employees, assign daily tasks, review submitted work, handle leaves, and issue PDF salary slips.
- **Employee Portal Login:** Accessible at <https://workallocator.buildingindiadigital.com/employee> — Dedicated portal for employees to view assigned tasks, log work done & hurdles, clock attendance, apply for leaves, and receive broadcast notices.
- **3-Second White Splash Screen:** Features a 3-second animated gradient buffer progress bar (#ffffff background) with company logo and live status percentage on app load.

Ø=Ü Dual-Portal Separation

Both portals operate on isolated authentication flows. Allocators manage team operations while employees view only their assigned tasks and confidential dashboards.

2. ALLOCATOR ADMIN CONSOLE — STEP-BY-STEP GUIDE

Step 1: Employee & Salary Infrastructure Management

- **Adding Employees:** Navigate to "Employees & Clients" tab. Input full name, role, employee code (e.g. BID-101), color tag, and confidential Base Monthly Salary (only visible to Allocators).
- **Credentials & Passwords:** Click the Key icon to generate employee login credentials. If an employee forgets their password, a live notification banner (Ø=Ý Employee Password Reset Requests) appears for instant password resets.
- **Resume Request & Storage:** Request employee resumes with one click. Uploaded resumes can be previewed or downloaded directly from the employee card.

Step 2: Client & Brand Registration

- **Adding Clients:** Input Client Brand Name (e.g. Nike India) and Industry Vertical. Once added, clients appear immediately in task allocation dropdowns.

Work Allocation, Attendance, Leave & Payroll Engine

2. ALLOCATOR ADMIN CONSOLE (CONTINUED)

Step 3: Work Allocation & Task Scheduling

- **Batch Task Assignment:** Select an employee and date. Add single or multiple tasks with task type (Reel, Story, Post, Printable, Video), client brand, drive URL, MP3/MP4 media links, and specific Allocator Remarks.
- **Task Review & Approval:** View submitted employee reports (Work Done Details & Hurdles Faced). Allocators can approve or disapprove work with custom review remarks.

Step 4: Attendance & Time-Tracking Logs

- **Live Session Monitoring:** Track real-time Clock-In/Clock-Out times, active session duration (hours and minutes), and completion status in IST time.
- **Editing & Deleting Logs:** Edit clock-in/out times or delete mis-logged attendance records using the Trash icon.

Step 5: Leave Management & Approvals

- **Reviewing Leave Proofs:** Inspect employee leave applications, dates, reason notes, and attached medical/proof documents.
- **Approval / Disapproval:** Approve or disapprove requests with feedback. Disapproved applications prompt employees to upload supporting proof for resubmission.

Step 6: Automated Pro-Rata Salary Slip Engine & PDF Export

- **Pro-Rata Salary Calculation:** Select employee and billing month (YYYY-MM). The engine automatically calculates earned work salary based on actual work hours logged vs. standard expected monthly hours (e.g., 200h).
- **Allowances & Deductions:** Add custom bonuses/allowances, work shortfall deductions, and extra deductions with instant Net Salary calculation.
- **Salary Slip Edit Modal:** Click the Edit (pencil) button on any generated salary slip to update base salary, allowances, or remarks in Firestore.
- **Full-Page A4 PDF Printing:** Click Print / Download PDF. Formatted with zero top margin, high-resolution company logo, address header, and employee code.

EMPLOYEE PORTAL & CLIENT WORKFLOW GUIDE

Daily Task Reporting, Attendance & Bell Notifications

3. EMPLOYEE PORTAL — STEP-BY-STEP GUIDE

Step 1: Portal Access & Password Management

- **Dedicated Employee Login:** Access <https://workallocator.buildingindiadigital.com/employee>. Enter assigned username and password with password unmasking toggle.
- **Forgot Password Request:** Click "Forgot Password?" to submit a reset request note directly to the Allocator Admin Console.

Step 2: Responsive Tabular Task List & Reporting

- **Tabular Task View:** Tasks are displayed in a clean, responsive table showing Date, Client, Task Type, Uploaded Drive/MP3/MP4 Links, Allocator Remarks, and Status.
- **Writing Work Reports & Hurdles:** Click the Report button to write Work Done Details and Hurdles Faced. Submit work as Completed or Incompleted for Allocator review.
- **Deleting Tasks:** Employees can delete or clear assigned task rows using the red Trash icon.

Step 3: Task Assignment Bell Notification Drawer

- **Real-Time Unread Badge:** A top-header Bell Icon (🔔) displays a live red badge (e.g. 🔔 2) whenever the Allocator assigns a new task.
- **Mark as Read & Clear All:** Opening the notification drawer allows employees to click "Mark as Read" or "Clear All" to permanently dismiss notifications.

Step 4: Digital Attendance Clock-In / Clock-Out

- **Single-Tap Clocking:** Click "Clock In" to begin work session. The live IST clock tracks active duration. Click "Clock Out" at end of shift.

Step 5: Leave Applications & Shared Broadcasts

- **Applying for Leave:** Select dates, leave type, reason, and attach supporting files (PDF/DOCX).
- **Shared Files & Notices:** View company announcements, birthday wishes, and download shared files.

4. EXCEL EXPORT & REPORTING

All work records and attendance data can be exported to formatted Microsoft Excel (.xlsx) files. Work durations are cleanly formatted as "Xh Ym" for error-free audit and accounting.
